

TODOAPP VUE-DJANGO

Overview

TODOAPP VUE-DJANGO is a Dockerized application that provides a full-featured TODO list management system. This application allows users to perform CRUD (Create, Read, Update, Delete) operations on TODO items, includes authentication for user management, and supports multiple languages.

Installation

Prerequisites

Before you begin, ensure you have the following installed:

- [Docker](#)
- (Optional) [Docker Compose](#) if your setup requires it.

Pull the Docker Image

To download the Docker image, execute:

```
docker pull medaminerjb/ticketsystem-django-backend:latest
```

Run the Docker Container

To start a container from the image, use:

```
docker run -d -p 8000:8000 --name medaminerjb/ticketsystem-django-backend:latest
```
